1. Purpose, aims and principles of the policy

The primary purpose of the 2024 Team Selection Policy is to clearly explain the process that will select the best possible athletes of a performance standard to represent Ireland at International WAKO World and European championships in 2024.

The long term aims of the policy are;

2. Support the development of athletes in all disciplines by providing a performance target to aim for and an objective test of their ability.

The principles used to meet these aims include:

Objectivity:

The team will be selected using objective performance-based criteria based on clear parameters and results.

Transparency:

The selection Process will be easily interpreted and published prior to each All Ireland Championships.

The policy will be binding on all athletes seeking team selection.
